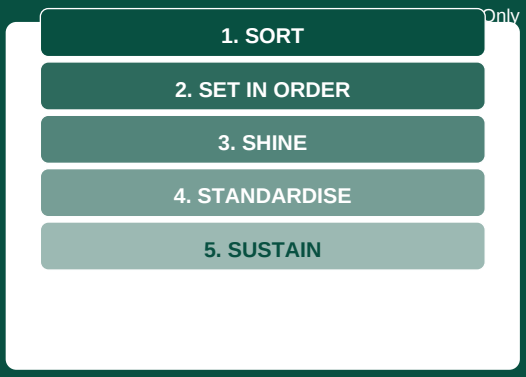
QUALITY & PROCESS

5S

Create and sustain a clean, organised, standardised workplace through Sort, Set in Order, Shine, Standardise, and



WHEN TO USE

When workplaces are cluttered, items cannot be found quickly, or quality and safety issues trace back to the environment.

HOW TO APPLY — STEPS

1. Sort — remove everything not needed for current work
2. Set in order — a defined place for every item
3. Shine — clean and inspect simultaneously every day
4. Standardise — create and display visual standards
5. Sustain — audit regularly and make discipline a habit

PRACTITIONER TIP

! 5S is not a one-off clean-up event. Without Sustain, the workplace reverts within three months.

KEY OUTPUTS

- Before/after photo evidence
- 5S audit checklist and score
- Visual workplace standards

HOW TO MEASURE SUCCESS

5S audit score (0–100); average time to find any item (target under 30 seconds)
