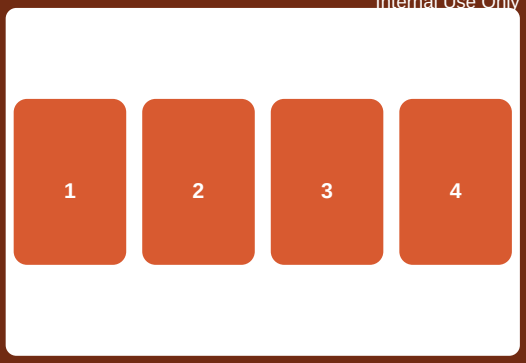
Internal Use Only

# Leading a Workshop

Design and facilitate a group working session that achieves a defined objective through structured, inclusive participation.



## WHEN TO USE

For problem solving, strategic decision making, improvement planning, or team alignment on complex topics.

## HOW TO APPLY — STEPS

1. Define the workshop objective and specific desired outputs before designing the agenda
2. Design the agenda with timed activities matched to the energy curve of the group
3. Prepare all materials, tools, and room layout in advance
4. Open with a clear statement of purpose, expected outputs, and ground rules
5. Facilitate: manage energy, time, and equal participation throughout
6. Close with explicitly documented decisions, actions, owners, and due dates

## PRACTITIONER TIP

! The facilitator's job is to serve the group's thinking — not to share their own opinions or steer toward a predetermined outcome.

## KEY OUTPUTS

- Workshop agenda and facilitation guide
- Session outputs document
- Action log with owners
- Follow-up communication plan

## HOW TO MEASURE SUCCESS

Objective fully achieved; participant engagement and satisfaction score; action completion rate at 30 days
